

# CAT OFFICE

D o c u m e n t   m a n a g e m e n t   s y s t e m

Easy to use online service for feline organisations that helps to organise workflow by effective IT solutions and integrates all members into one system.

# OUR MISSION

---

Cat-office.com is a software solution enabling Felinological Ogranisations (Clubs) to carry out their document workflow.

Cat-Office makes document creation a simple and convenient affair, due to to effective IT solutions and high integration of all participants of the process: Breeders, Owners and Club Managers (Presidents), - on a single platform.

Cat-Office allows an Owner of a cat to place an order for any document in his club, including:

- Kitten Pedigree (metric)
- Pedigree
- Title certificate and certificate of breed confirmation

Cat-Office simplifies the process of creating and issuing a document to an Owner and a Breeder.

# PAYMENTS

---

Cat-Office uses "Quotas" for payment operations. 1 Quota is an admission to create a document of a specific type.

The Club acquires a package of quotas and can spend it on creating documents.

The main Club can also list Quotas to its Contract Clubs (in this case the club can include its mark-up in the cost of each quota).

# HOW TO ISSUE THE DOCS

---

1. Cat owner logs in with his account and creates an application for new doc issue. After saving, this application is sent to the Club.
2. Now Club secretary can see this application in his Inbox inside the system and can decline or accept it.
3. As soon as Club secretary accepts the application, he goes to the pedigree constructor, where he fills out all empty fields. Then he can preview it and create the final document. At the point of the final document creation a number will be assigned to the pedigree and the quota will be written off from Club's balance. PDF copy of the document is being saved on the server forever and can be used as a proof of valid document issue.
4. Then Club secretary prints this document on a special blank and gives it to the Cat Owner.
5. Every document has a unique identification (ID) number and a QR code, leading to the electronic copy of the document.

# BENEFITS

---

1. With our Unified Database the possibility of errors and/or bootleg documents converges on zero .
2. Curator Clubs may control their Contract (Hospitant) Clubs' issued documents and provide fixes as necessary.
3. Club secretaries able to generate an EXCEL datasheet containing all necessary and recent data about new issued pedigree.
4. Fixes and changes to any cat's original data (Colour change, awarded titles, etc.) are applied to all documents in the Database.

# OUR ACHIEVEMENTS

---

Cat-Office documents are internationally standardized and used by Clubs in 5 international cat judging systems (WOC, CCLC, FARUS, WCF, CCPL) from 27 countries of the world.

Over 5 years of work, more than 75 thousand documents have been created.
